

Bespoke Diving Services - Equipment Rental Agreement

I _____, wish to rent dive equipment from Bespoke Diving Services and any of its affiliated owners, instructors, or guides. I understand and agree to the following:

- To rent equipment from Bespoke Diving Services, I attest that I am a current guest or client that is already certified in its use, with the explicit exception of those participating in a class that provides accredited instruction. I understand that use of this equipment for any other purpose is strictly prohibited, and that already-qualified users must adhere to the limits of their training when renting equipment from Bespoke Diving Services.
- Due to logistics, unqualified students or clients may be unsupervised while in possession of, or proximity to, equipment or gasses during storage and transport before and/or during training and before certification is provided. The uncertified use of certain compressed gases, conducting dives requiring mandatory decompression obligations, diving in overhead environments, dive propulsion vehicle (DPV) use, or the usage of a Closed Circuit Rebreather, outside of the instructor's supervision, beyond the diver's current level of certification, or are inconsistent with generally acknowledged safety protocols, constitutes a breach of trust and training standards. Bespoke Diving Services therefore reserves the right to terminate the renter's pre-paid class or guide/accommodation package, with the renter forfeiting payment.
- You must have a major credit card (American Express, Discover, MasterCard, Visa) on file with Bespoke Diving Services before removing any equipment from our facility. By signing this statement, you authorise Bespoke Diving Services to charge this credit card if you fail to return the rented equipment on time or if you damage this equipment.
 - You are responsible for returning your rental equipment on the date listed in this Rental Agreement. If you fail to return rental equipment on time, the current daily rental fee will be charged to your account.
 - If the equipment you are issued is damaged during training because of improper use, neglect, or carelessness, you will be charged an appropriate fee to either repair or replace the damaged equipment.
- Any equipment you rent and then return to Bespoke Diving Services must be properly cleaned and dried after saltwater dives. A service fee of US\$25 per item or US\$50 per kit will be assessed for any equipment that is returned without being cleaned.

I, _____, understand and agree to the policies stated above. I am fully aware that I am responsible for the care and timely return of the equipment I will be issued. If I fail to properly care for or return the equipment I am issued according to the terms above, I am aware that I will be charged for damages or late return fees. Further, I understand that my certification may be delayed or denied should I fail to make prompt payment of these fees.
